

Study Area Map

The San Gabriel Valley has over two million residents and covers more than 374 square miles. Bordered by Los Angeles to the west, San Bernardino County to the east, the San Gabriel Mountains to the north and the hills south of State Route (SR) 60 to the south, this diverse and expansive area includes densely populated cities, employment centers, and residential areas.

This Study includes two different focus areas within the Study Area Boundary:

- The *Focus Area for Integration of Services* will leverage existing assets such as the Metro Gold Line to integrate with connecting services.
- The *Focus Area for New Services* will target areas that are currently underserved and lacking quality transit service.
